

Unparalleled Coast-to-Coast Operations

Boral is the only CCP marketer with a national footprint, shipping ash directly from its power plant sources, rail terminals, and fly ash storage and distribution operations. Its East, West, and LA Ash regional divisions serve over 4,000 customers nationwide. Boral also has:

Over 24 million tons of CCPs under contract at 130 locations, representing approximately 50 utilities in 40 states across the U.S.

An extensive logistics network including operations of more than 30 free-standing terminals, 400 trucks, and a railcar fleet of 1,750 cars.

National purchasing power able to negotiate high-volume freight rates with railroads and trucking companies.

National purchasing contracts with major CCP end-users, including large ready-mixed concrete producers.

Sales, marketing, and operations offices in every region of the country.

Strategic relationships that ensure access to the most up-to-date equipment, including partnering agreements with two national heavy equipment suppliers and a leading national truck supplier.
